

RECOGNISE the RED FLAGS OF CHILDHOOD CANCER

Seek medical help early for ongoing symptoms

White spot in the eye, new squint, sudden blindness or bulging eyeball

Lump on the stomach, pelvis, head, arms, legs, testicle or glands

Unexplained fever present for over two weeks, weight loss, fatigue, pale appearance, easy bruising & bleeding

Aching bones, joints, back and easy fractures

Neurological signs, a change in walk, balance or speech, regression, contiguous headaches with/without vomiting & enlarged head

* The Saint Siluan warning signs list is currently used in South Africa
